

April 2016

Jean-Jacques Terrin

18 rue Pierre et Marie Curie – 75005 Paris
jjterrin@gmail.com
www.terrin.net

Jean-Jacques Terrin is an architect & urban planner, doctor in architecture. After important professional and academic activities he is now professor emeritus and collaborates as researcher in several laboratories in France, Canada and Albania. He undertakes research and books on the strategies of innovation, changing of design practices and collaborative work in urban planning. His activities in the frame of European projects give him a good knowledge of issues and making of the European cities.

He is fluent in French and Spanish (mother tongues), English (C1), German and Italian (B2).

1. Teaching activities

- **School of Architecture Versailles**, PhD seminar: « Evolution of Design Processes and Innovation Strategies », 2011-2016.
- **University of Montreal**, PhD Seminar and Workshop: « Design Process and Innovation », Faculté de l'aménagement, Laboratoire GRif, 2011-2016.
- **Polytechnic University of Tirana**, PhD seminar and Workshop: « Design Process and Innovation in the informal city », Faculty of Architecture and Civil Engineering, 2011-2014.

2. Recent Research Activities

- **INSTITUT CDC for Research**: Territorial Coproduction & emerging strategies for medium-sized urban areas, 2016-17
- **URBACT**: Lead expert for the European Cities Network ENTER.HUB exploring Territorial Effects of Railway Hubs and their Urban Benefits, Urbact EU program, 2013-2015.
- **POPSU Europe**: Scientific Oversight of an observation platform for Urban Development and Changes in Europe. Organisation of regular seminars between cities and researchers. Atelier International du Grand Paris, 2008-2013.
- **INSTITUT CDC for Research**: The shared project: Collaborative methods and tools in Industrial and Cultural sectors and possible transfer in the field of Urban Design, Caisse des Dépôts et Consignations, 2011-2012.
- **EUROPAN**: Exploration of innovative and contemporary tracks for the coming sessions of the EUROPAN competition and debates, PUCA, 2011.
- **ECO-DISTRICTS**, Sustainable Design, Architectural and Urban Issues: Scientific Oversight. How, sustainable issues, stakeholders partnering, collaborative work, contribute to a transformation of theoretical and practical framework of Architectural and Urban Design. PUCA, 2009-2011.
- **IP CITY**: participation to a European project aiming to improve public participation by the use of mix reality technologies that enable interactive experiences in urban planning. EU, 6th Framework Program, 2006-2011.
- **PUCA**: Scientific oversight of research program « Programming and Design», 1996-2001

3. Short List of Publications (Books)
